MCP Server w/Your Agent
Starburst Workshops

Subtitle Goes Here

A hands-on webinar
with Lester Martin from DevRel

Connection before content

Lester Martin – https://linktr.ee/lestermartin

- Developer Relations @ Starburst
  - Blogging & forums
  - Webinars & videos
  - User groups & events
  - Training & tutorials
- 30+ years of technology experience
  - Started journey on TRS-80 Model III
  - Played most roles, but a programmer at my core
  - ½ career in OLTP and ½ in data analytics
  - Decade+ of “big data” experience to include
    - Trino/Starburst, Hadoop, Hive, Spark
    - NiFi, Kafka, Storm, Flink
    - HBase, MongoDB

AI and Starburst

Unlock faster, trusted insights with AIDA

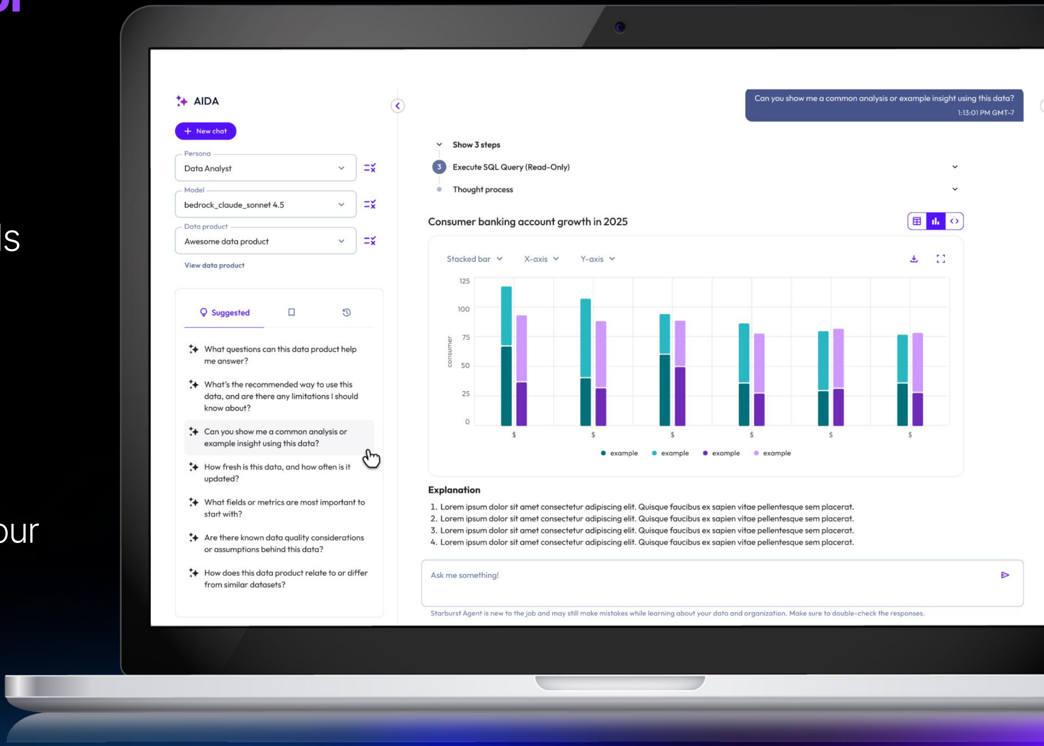
AIDA

Meet AIDA: Your AI Data Assistant for governed, enterprise data

AIDA gives business users a conversational interface to query and explore trusted, governed data without writing SQL or relying on dashboards

Trusted by design
Answers come from governed data and business context not black-box LLM guesses

Customizable
Customize the color and feel of the AIDA to match your business



Available on Starburst Enterprise & Starburst Galaxy

Starburst

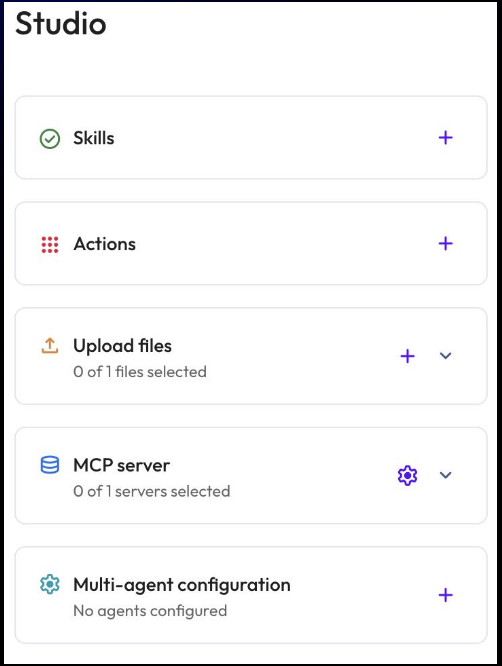
AIDA Studio Extensions

Answer increasingly complex questions with AIDA using custom functionality, workflows, and integrations

The AIDA studio extensions allow users to further optimize and customize how AIDA behaves.

- 3rd party AI tool and agent integrations to enhance AIDA's capabilities
- Skills to define new behaviors and workflows
- File upload to further enhance context

Each new integration makes AIDA more capable. Each new skill makes AIDA more valuable



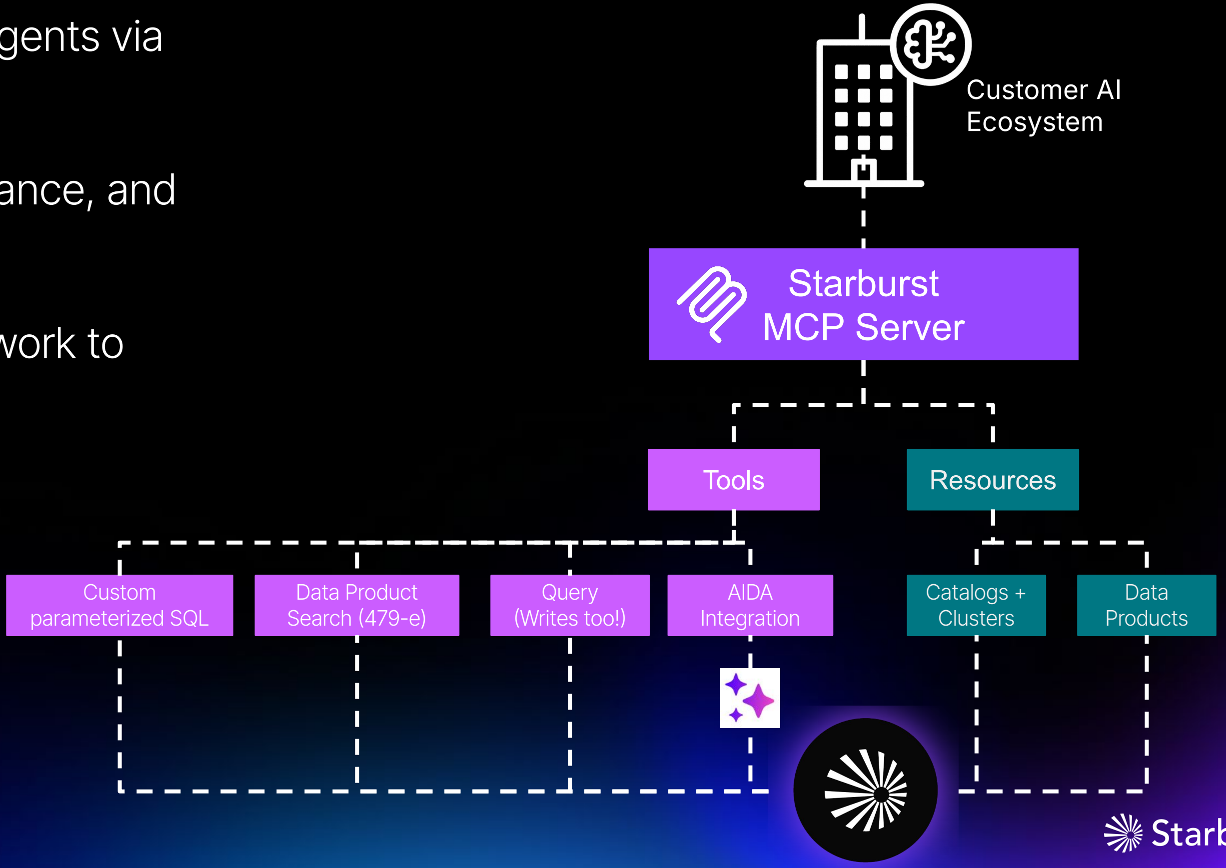
Starburst

Extend Enterprise Intelligence to custom agents

Integrate with third-party agents via Starburst MCP server

Improve accuracy, performance, and governance

Offload Starburst-specific work to dedicated, custom agents



Starburst

How Enterprise Intelligence Gets Delivered

Deploy anywhere, run everywhere – without rebuilding your data stack.

Hands-on

MCP Server

Integrate Starburst Galaxy MCP with Claude Desktop

21 mins remaining

1. Tutorial overview
2. Sign into Starburst Galaxy and Claude Desktop
3. Create an OAuth client
4. **Connect Claude to MCP server**
5. Perform data analysis activities
6. Perform data engineering activities
7. Tutorial wrap-up

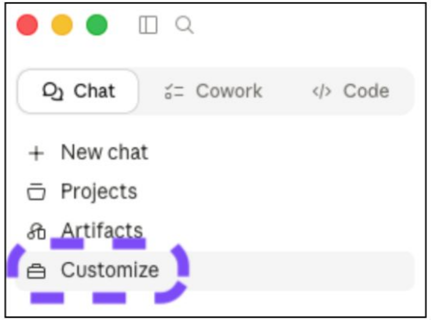
4. Connect Claude to MCP server

Background

Claude has an available Starburst connector that you can configure to access your Starburst Galaxy MCP server.

Step 1: Locate the Starburst connector

Return to your Claude Desktop application and select **Customize** from the left navigation menu.



What are my next steps?

- Explore the MCP Server documentation
  - Starburst Galaxy
  - Starburst Enterprise
- On-demand Office Hours demo-based webinars
  - Building AI-Ready Data Products
  - Getting Hands-On with AIDA
- Upcoming webinars
  - Don’t Let Complexity Kill Your GenAI Analytics
  - AIDA Hands-On - Building Your First AI-Assisted Workflow
